Taking me away
Straight down
Talking 'bout the way
That you fucked me
You thought I was sick
Look out cause everything's the same
When I make a sound
What do I gotta be
To make it happen now
Well you're gonna see
The rules come crashing down
Enter-the Spaceman
He's only half a man
Enter-the Spaceman
He's only half a man
Like a token black
Take up the slack
Talking 'bout the way that you used me
What do I gotta be
To make it happen now
Enter-the Spaceman
He's only half a man
Enter-the Spaceman
He's only half a man
Well you're gonna see
The rules come crashing down
Enter-the Spaceman
He's only half a man
Enter-the Spaceman
He's only half a man
Enter - the spaceman
