

Citizens! "Caroline"

Visit "[Caroline](#)" on MotoLyrics.com

Caroline, you were a friend of mine
Long ago when to err, it was divine
You spoke your mind to all the guys
They never knew if what you said was true

We started making sense
We never made any sense
[x2]

Caroline, all this once upon a time
You would ask if you could still come back to me
You run your mouth on crowded nights
When the moon was high and then all at once

We started making sense
We never made any sense
[x4]

When you looked up it all fall in to silence
No one lets a girl like you get bored

We stopped making sense
We never made any sense
[x6]

Oh, we stopped making sense
