I have a feeling
There's people in the stars
Way up in the sky
I just got a feeling

Maybe we should build a spaceship
So we can go see them
The little aliens
The children of the stars

Let's call our spaceship Bebop
And jet across the stars
I'll fly along beside you
See you Space Cowboy

If that was my dream
Would you come along with me?
Leave this place we have
Would you come with me?

I don't think I could stay here
Not with the stars calling me
Whispering my name when it's quiet
"Come fly with me"

We could spend a Valentine there
I'll buy you a moon flower
I'll give you a moon flower

Let's call our spaceship Bebop
And jet across the stars
I'll fly along beside you

Let's call our spaceship Bebop
And jet across the stars
I'll fly along beside you
See you Space Cowboy
