The end is guaranteed;  
it catches up with speed.  
For some, it comes a little sooner.

But we'll put up a fight,  
and I can tell tonight,  
a look is building up inside your eye.

You know we don't have that much time -  
a candle is blown out every night.  
A heartbeat don't keep someone alive.  
I wanna live before we die.

You said you wanted commotion;  
instead, you're going through the motions.  
That is not you.

You shout you won't even matter:  
"Watch how my memory will scatter."  
That is not true.

Bleed with me.  
Come on, won't you bleed next to me?  
Breathe with me.  
Don't you wanna breathe next to me?  
Stay in between these sheets with me.

Bleed with me.  
Come on, won't you bleed next to me?  
You'll forever be the strongest part of me.

I wanna live before we die.  
I wanna live before we die.  
I wanna live before we die.
