

City Drive, The "Overready"

You don't know what you need
so come take advantage of me.
I've been wringing my hands
for someone to give me the chance
'cause I'm sick of the scene and the
same old routine that I've known.
Now I'm taking the

century; it's in front of me and
I am overready.
I'm breaking away to another place and
I am overready.

I keep kicking through life
'cause it don't come overnight.
I won't hit a dead-end
like I have again and again.
And I welcome the enemy
right here in front of me so
now I'm taking the

century; it's in front of me and
I am overready.
I'm breaking away to another place and
I am overready.

This could be it - it could be now.
Now is the time to move on.
Don't you know I won't let you down?
So come along.

I have waited so long.
Time's been wasted too long.
