Getting closer, the calm has come to an end.  
Underwater, I'm forced to fight once again.

Say it's over.  
I've tried hard to save it all.  
Say it's over, yeah.

Room gets colder, I flash to when I once said:  
"When I'm older, I'll keep it straight in my head."

Say it's over.  
I've tried hard to save it all.  
Say it's over.

And I get stars all over again.  
Yeah, I get stars all over again.

Say it's over.  
Say it's over.  
I've tried hard to save it all.
