(Tequila!)

(El quemao, el quemao, la historia del quemao, el quemao)

(Hello my name is Margarita, you wanna party?

Hello you wanna party? My name is Margarita)

(Tequila!)

Si quieres tomar tequila,

You need a little salt 'n lime

Be careful with Margarita

Esa loca, she blows your mind

Si quieres tomar tequila,

You need a little salt 'n lime

The party, nunca termina

Continues en el hospital

Ok let me tell you amigos my story

they all begin empezo early in the mornin'

Perd? casa, mina, queme la cocina

I Lost my girlfriend Elle

y hay no termina

It was a bet una apuesta que way out

Pero perd? porque ahora ya no tengo na?(tengo na?)

Consistia en tomarme tres cortos al seco

Me emborrach? y termin? en bronca con un sueco

I don't wanna wanna tell you

what to do it to be

but you wanna, but blame on me

all the fellows and the ladies

in the place to be

everybody come and sing it with me

(Tequila!)

Si quieres tomar tequila,

You need a little salt 'n lime

Be careful with Margarita

Esa loca, she blows your mind

Si quieres tomar tequila,

You need a little salt 'n lime

The party, nunca termina

Continues en el hospital

Mi date was ok on the pura alegr?a
Everything got it fun on the way to my t?a
Ca? en la piscina, bot? a la vecina
Despu?s ma? encima choqu? en la esquina
Then guess who showed up, la mona (la mona!)
I can't do it no pude hacer na (hacer na)
bustted for grounded like starsky 'n hutch
ahora tengo que enfrentarme got face the judge

I don't wanna wanna tell you
what to do it to be
but you wanna, but blame on me
all the fellows and the ladies
in the place to be
everybody come and sing it with me

(Tequila!)
Si quieres tomar tequila,
You need a little salt 'n lime
Be careful with Margarita
Esa loca, she blows your mind
Si quieres tomar tequila,
You need a little salt 'n lime
The party, nunca termina
Continues en el hospital

Every body, come on

(Tequila!)
Si quieres tomar tequila,
You need a little salt 'n lime
Be careful with Margarita
Esa loca, she blows your mind
Si quieres tomar tequila,
You need a little salt 'n lime
The party, nunca termina
Continues en el hospital

Otra m?s por favor
