Being with you  
Longing for something to happen  
Biting my tongue  
Hoping to get a reaction  
Atmosphere's tense  
Happy with anticipation  
Don't leave me here  
With only my imagination

Free me

[Chorus:]

Now Free me let me loose to love you  
Yeah how i long to seduce you oh  
Free me let me loose to love you Yeah how i long to  
seduce you now

How long can i  
Continue to suffer in silence  
My achin' heart  
Can't bear to wait in such suspense  
So maybe its time  
To tell you just how i am feeling  
Coz for undesire i have too long been concealin

Free Me

[Chorus]

Free Me  
Free Me

[Chorus x 2]
