Burning cross appears, symbolising death  
Black waters stir, a painful sight  
Secret faces overarch the spheres  
The wind groans, seance repeats  
Gorge of night, unseen woods  
Shadows cast out, purgatory winds  
Desert moans a silent scream  
Burning cosmos, sign of the beast

Through the spheres before time  
Immeasurable dimensions  
Full of anger, desire and lust  
The secret faces overshadow it all

Gorge of night, unseen woods  
Shadows cast out, purgatory winds  
Desert moans a silent scream

Nightmares hunting the innerself  
Visions reflections of an afterlife

As I fall down on my knees  
Raise my left hand in the signs of the horns  
Seance starts, I scream in ancient tongue  
Invocation, appearance in black  
Faceless one, guide of the night  
Prince of the evil spirits in the air  
Lord Pazuzu let my share thy wings  
Show thou world, make my visions live!

Nightmares hunting the innerself  
Visions reflections of an afterlife

Hunger for dimensions of the dragons lust

Huge bright flames roar within the horned dog

Dragon bull creator of lascivious lust  
Pure pleasantness laughter in disguise

It roams in thee, my demon seed  
Vigorous power abominated strength

Locust legions from a chaotic realm  
Hostile horde a possessive dream

Hunger for dimensions of the dragon lust  
Secret knowledge, a burning dream  
Unspoken words, ancient quest rejected

Hunger for dimensions of the dragons lust  
Huge bright flames roar within the horned dog

Dragon bull creator of lascivious lust  
Pure pleasantness laughter in disguise

Hunger for dimensions of the dragon lust  
Unspoken words, tortured minds  
Ancient quest, still unknown  
What is true? Sense of demise
