Surrounded by darkness  
the unholy house deceit  
keeper of the pylons  
with dimensions to sinister worlds  
malicious labyrinth  
harbour of the unholy altar  
beholder of the ritual  
keeper of my spiritual destiny

Tribulation - desecration  
immolation - my salvation

This bottomless pit  
gate to the eternal bounds of darkness  
prodigal light where demons lodge  
emptiness filled with sadistic lust  
vindictive crypts - chasm of agony  
smell of burning skin fills the air  
Mortals burning at the cross  
my ritual has begun  
eating out the innards  
crushing genitals on the altar  
disemboweled cauterized  
decapitated bodies

Tribulation - desecration  
immolation - my salvation

The altar surrounded by lust  
pleasant violent carnage rite  
craving for infernal crypts  
give credit to evil  
disposed of my mortal skin  
my spirit re-unites with eternal darkness
