"Hand Of The Saint"

Blood shot - evil eyes
A black robe covered his lies
Tangled in extreme caress
The last confess

Standing in the crossroads
Going down the line
Keeping up the feelings
Send a sign

Does it makes a bigger difference
Who's the sinner who's the saint
Father forgive me - help me
Give me more to complain
The hand of the saint

I never thought i 'll break the spell
Endless circles i hear the bell
I look the left and to the right
The holy man was out of sight

Standing in the crossroads
Going down the line
Keeping up the feelings
Send a sign

Does it makes a bigger difference
Who's the sinner who's the saint
Father forgive me - help me
Give me more to complain
The hand of the saint
