There I'm sitting now
Around me everything
Works cold and empty
There is no more faith

Who says, you would have
A good character lies
Your little black heart strikes
On the wrong side

Signed, sealed and delivered
It's my wounded heart
I knew it from the start
Signed, sealed and delivered
I can't wait any longer
Can't get any wronger

Your view changed
And at the end i failed
Don't expect me to die
With the pace of a snail

I could not do it
What has happened here
Fought and crawling upward
I mark pain property

Signed, sealed and delivered
It's my wounded heart
I knew it from the start
Signed, sealed and delivered
I can't wait any longer
Can't get any wronger

Everything I felt you
I forget the blue
Your words are full lies
There's no more desire - no

Here I'm sitting now
Around me everything

Works cold and empty
There is no more faith

Signed, sealed and delivered
It's my wounded heart
I knew it from the start
Signed, sealed and delivered
I can't wait any longer
Can't get any wronger
