I hate about love!

Love just makes me hurt.
No one understood my feelings.
I promise, I will not love her with my love,
Cause women never get back at me with his love.
Why like this?
Love just makes me hurt.
No one understood my feelings.
I promise, I will not love her with my love,
Cause women never get back at me with his love.
Why like this?

When I can feel the love from a women who I love?
I hopes that, and I very hopes.

I will wait, I will wait.
Until I grow up, I will struggle to not feel of love.

Hey god, please give me your power to not feel of love.
Hey god, please give me your power to not feel of love.

Hey god, please give me your power to not feel of love.
Hey god, please give me your power to not feel of love.

And if I am is grow up, I will start to go to the love.
