[Sinner, Naumann, Beyrodt]

Dreams come and go  
Don't lose your self control  
The prophets of doom  
Don't leave us alone  
Dreams come and go in black and white  
The future is gold  
Count on me if you're scared  
Till the dam broke - walk the edge  
The real world is gone but we stay

We jump the gun - the systems are falling  
But we still jump the gun  
Another world is dying - jump the gun

Believe it or not, things will happen here  
In the name of god  
Count on me if you're scared  
Till the dam broke - walk the edge  
The real world is gone but we stay

Give me one good reason  
Only mind games can tear us apart  
Count on me if you're scared  
Till the dam broke - walk the edge  
The real world is gone but we stay

We jump the gun - the systems are falling  
But we still jump the gun  
Another world is dying

Jump the gun
