Sinner

This is the last dance  
The last kiss goodbye  
This is the last dance  
Our love will never die

I'm walking down the backstreets  
She's got her eye on me  
I showed her no mercy  
And shadows surrounded me  
Open eyes beyond the windows  
It took only one look  
She plays it tough  
She breaks the rules

Don't throw it all away  
I'm standin' in the rain  
Loneliness in an axe that cuts  
If you need me call my name

This is the last dance

Then I saw you dancing  
In the deep red light

Why can't this night  
Go on forever  
I guess I tried too much  
We were hungry for love  
We take it up to the limit  
And lose control

She hides her face  
It was more than I romance  
It's hard to love a man like me  
I need another chance

This is the last dance  
The last dance

Just call my name

And I'll come running back  
Into your life  
And if you need my love  
Just call my name

This is the last dance  
Oh no, no  
This is the last dance  
Oh no, no, no, no, no, no, no, no
