Visit "[Angelz Cried](#)" on [MotoLyrics.com](http://MotoLyrics.com)

[Chorus: Samaria]

The angels cried for you, when you fell that day  
How can I replay, all the joy you gave  
Memories of us, will never fade away  
The angels cried for you, when you fell that day

[Verse 1: Moe]

A part of me died, you'd be lyin if you told me that I'd  
be your right  
My soul cried but my eyes had to stay dry  
Bein strong for your moms when she ask me why, why  
I wondered too but I can't question God's actions  
They say it happens for a reason and I should be happy  
This wishful thinkin got me feelin like a soul at ease  
I hope you got your soul right before you had to leave  
If not God forgive him for his sins please  
He know not what he did walkin as a deed  
But if my prayer's in vain, I sacrifice me  
He had a rough life, he need a smooth eternity  
You chased for currency it worried me I never said it  
The wrong direction was your fate you knew where you  
was headed  
Your presence was a message to me and I can't forget  
it  
We only have one life so you better live it

[Chorus: Samaria]

The angels cried for you, when you fell that day  
How can I replay, all the joy you gave  
Memories of us, will never fade away  
The angels cried for you, when you fell that day

[Verse 2]

[Jelani]

What's supposed to do now  
You live for me I live for you because we true pals  
Oh what to do now, tried to make it through, how  
They took you away and everyday I say who now, or  
who now  
'Cause I know, I'm the last one left  
When they took you homie, it's like they took my breath

And I can't stand, villains of my left hand man  
Together we had plans now it's never again  
Man, I hate that, what is this payback  
For everybody that I hurt please don't say that  
I pray that, I know where ya at 'cause I can't bring ya  
back, I can't bring  
Ya back  
It's a fact and we all done, and we all grunt  
And when that day come, we all gon' save up  
But why, did they have to take you and not my enemy,  
I'm holdin on 'till  
Ya...

[Java]

Roll with me, full of grief homie disbelief

Can't sleep 'cause my nigga keep on callin me  
Memories of ya been straight suited up  
Hush puppies, shirt tucked, with ya diamond studs  
Was it my love for the music, or was it just me  
That kept my nigga from kickin it, spittin at fiends  
Males, bad as hell causin drama at school  
Broke the rules 'cause we niggaz had nothin to lose  
Shocked as hell 'cause I was just gon' call  
Before my nigga Ken told me you was chillin with God  
I feel like I did ya wrong, pullin up ya phone number in  
my cell phone  
How long, will it be before I see you again  
You took the highway to heaven like Michael and did  
Starin at ya nigga from heaven above  
Reunited with your mother so I know it's all good

[Chorus: Samaria]

The angels cried for you, when you fell that day  
How can I replay, all the joy you gave  
Memories of us, will never fade away  
The angels cried for you, when you fell that day

[Verse 3: JU]

I wish I could reach down in the ground and put my  
arms around you  
My tears would started showers and form storms and  
drown you  
I could never forget the day, that I lost ya  
Good thing I let you know I love ya, the last time that I  
talked to ya  
I wish that I could wake you up, but I'm glad you restin  
eternally  
Just the fire in my heart from losin you is still burnin me  
Turnin me to a man for our journey into a land  
Where I be lost if I didn't have you holdin my hand

By my side when I needed you  
Wish you would of just picked a time to say, JU I'm  
leavin you  
So I could better be along, you always told me friends  
surprise ya, just  
Take it head on  
I guess that's why I could lie so much  
And I guess that's why at ya funeral, I broke down and  
cried so much  
My grandma always said you too much like yo  
granddaddy  
I'm tryin hard to be strong, but I miss ya badly

[Chorus: Samaria]

The angels cried for you, when you fell that day  
How can I replay, all the joy you gave  
Memories of us, will never fade away  
The angels cried for you, when you fell that day
