We're the last of the sleepless ones,  
Left behind by those we left behind tonight.  
Quiet now, let the boys intake,  
Were we always, just your lost caused mistakes?

Wait for me, will you wait for me?  
I need you on my side.  
Wait for me, Meg wait for me,  
With arms wide.

Alone, left alone,  
Watch us slowly disappear with time.  
Alone, still alone,  
Forgotten, lost, and left behind.

Darklit streets are no place for kids,  
But it gives us more, of a home than you ever did.  
We're the scientists left to our own demise,

You're still our last chance, to get out of this place  
alive.  
Wait for me, will you wait for me, with arms wide?

Alone, left alone,  
Watch us slowly disappear with time.  
Alone, still alone,  
Forgotten, lost, and left behind.

Alone, left alone,  
Watch us slowly disappear in time.

Alone, left alone,  
Watch us slowly disappear with time.  
Alone, still alone,  
Forgotten, lost, and left-  
Alone, left alone.  
Watch us slowly disappear with time.  
Alone, still alone.  
Forgotten, lost, and left behind.
