One last glance from a taxi cab  
Images scar my mind  
Four weeks felt like years  
Since your full attention was all mine  
The night was young and so were we  
Talked about life, God, death, and your family  
Didn't want any promises  
Just my undivided honesty

And you said,  
Oh, things are gonna change now for the better  
Oh, things are gonna change oh they're gonna change

I am the patron saint of lost causes  
My fraction of who I once believed (change)  
Only a matter of time  
Opinions I will try and rewrite  
In my pen, background music,  
Playing your song,  
I've got to be honest, I tried to escape you  
But the orchestra plays on,

And they said,  
Oh, oh, things are gonna change now for the better  
Oh, oh, things are gonna change

Hands like secrets are the hardest things to keep from  
you  
Lines and phrases like knives your words can cut me  
through  
Dismantle me down, (repair) you dismantle me, you  
dismantle me.

Hands like secrets are the hardest things to keep from  
you  
Lines and phrases like knives your words can cut me  
through  
Dismantle me down, (repair) you dismantle me, you  
dismantle me.

Give me time to prove  
To prove I want the rest of yours (prelude)

Call this a prelude to a lifetime of you,  
It's not that I hang on every word,  
I hang myself on what you mean,  
Its not that I keep hanging on,  
I'm never letting go,

Hands like secrets are the hardest things to keep from  
you  
Lines and phrases like knives your words can cut me  
through  
Dismantle me down, (repair) you dismantle me, you  
dismantle me.

Hands like secrets are the hardest things to keep from  
you  
Lines and phrases like knives your words can cut me  
through  
Dismantle me down, (repair) you dismantle me, you  
dismantle me.

Save me from myself  
Save me from myself  
Help me  
Save me from myself  
Save me from myself

Oh, oh, things are gonna change now for the better  
Oh, oh, things are gonna change

Hands like secrets are the hardest things to keep from  
you  
Lines and phrases like knives your words can cut me  
through  
Dismantle me down, (repair) you dismantle me, you
