"Down"

Visit "[Down](#)" on MotoLyrics.com

You would have loved who I used to be,
Yesterday I would have hated the boy you see
When you found me I was at my worst
The best I was is a long forgotten curse.

You caught me on the way down
Please hold my hand before I drown
Tie my hands before I burn this town
You caught me on the way down

I feel like a shell of yester years gone by
Bad decisions like those that just wont die
I'm so sorry that I can't apologize
What comes next is another long goodbye
You caught me on the way down (hunny hunny)
Please hold my hand so I don't drown
Tie my hands before I burn this town
You caught me on the way down.
You caught me on the way down (hunny hunny)
Please hold my hand so I don't drown
Tie my hands before I burn this town
You caught me on the way down.
You caught me on the way down
Please hold my hand so I don't drown
Tie my hands before I burn this town
You caught me on the way down.
