Are there no shadows where you are?  
I can see everything is day  
Problems that you try to hide away  
Pushing me aside (You're pushing me aside)

Could the winter calm come twice?  
Could your heart seem so cold tonight?  
There's no substance somehow isn't right  
It's killing me inside (It's killing you inside)  
Killing me inside

I don't wanna be where you are  
I don't wanna be here even now  
I don't wanna be by your side  
Something isn't right  
Something isn't right

This is our last goodnight  
Say what you will  
Say all that you can  
Words have no meaning  
When I've seen where you've been

This is our last goodnight  
Say what you will  
Say all that you can  
This is our last goodbye  
This is where love ends

I assume I have to write it wrong  
How could you watch and since forgone?  
Does what we've done ever really belong?  
You're wasting me away (I feel so wasted away)

God if you can hear me out alright  
Please take these feelings for her inside  
My chest hurts when I breathe tonight  
It's wasting me away (You're wasting me away)  
You're wasting me away

I don't wanna be where you are

I don't wanna be here even now  
I don't wanna be by your side  
Something isn't right  
Something isn't right

This is our last (This is our last)

This is our last goodnight  
Say what you will  
Say all that you can  
Words have no meaning  
When I've seen where you've been

This our last goodnight  
Say what you will  
Say all that you can  
This is our goodbye  
This is where love ends

This is our last goodnight  
Say what you will  
Say all that you can  
Words have no meaning  
When I've seen where you've been

This is our last goodnight  
Say what you will  
Say all that you can  
This is our last goodbye  
This is where love ends
