woah oh, yeah-ah  
woah oh, yeah-ah  
woah oh

live for today  
we'll dream tomorrow  
we've got big plans in sight  
we'll take this city and by nightfall...  
the bright lights are calling

everything is going our way  
everything is just as we've planned  
this is our future (from what we've heard)  
and i've still got your hand

and it feels like we could last forever  
and i'm not doing this alone

*[Chorus]*

when memories fade  
we've got each other  
when time and confusion collide  
singin' i hold it all when i hold you  
when friends walk other ways  
we've got each other  
i hold it all when i hold  
i hold it all when i hold you

woah oh, yeah-ah  
woah oh, yeah-ah  
woah oh

we fell on hard times  
this isn't the ideal  
we're miles from home  
doing the best that we can (best that we can)  
i won't do this without you  
i won't do this without you  
so take heart...  
'cause you know that you have mine

and it feels like we could last forever

and i'm not doing to do this alone

*[Chorus]*

*[Bridge:]*

its not about the money we make  
its about the passions that we ache for  
what makes your heart beat faster  
tell me now what does your body long after

i don't care now where we live  
it's not where, or what, or who we were with  
i just need you in my life  
so promise me again

when memories fade  
we've got each other  
when time and confusion collide  
singin' i hold it all when i hold you  
when friends walk other ways  
we've got each other  
i hold it all when i hold  
i hold it all when i hold you

woah oh, yeah-ah  
woah oh, yeah-ah  
woah oh
