Emotive unstable you're like an unwinding cable car
Listening for voices, but it's the choices that make us
who we are
Go your own way, even seasons have changed just
burn those new leaves over
So self-absorbed you've seemed to ignore the prayers
that have already come about

This is the correlation of salvation and love
(Don't drop your arms)
Don't drop your arms, I'll guard your heart
With quiet words I'll lead you in

La lalalala, la la la, la lala, la
La lalalala, la la la, la lala, la

Backing away from the problem of pain you never had
a home
You've been misguided, you're hiding in shadows for
so very long
Don't you believe that you've been deceived that you're
no better than...
The hair in your eyes, it never disguised what you're
really thinking of

This is the correlation of salvation and love
(Don't drop your arms)
Don't drop your arms, I'll guard your heart
With quiet words I'll lead you in

This is the correlation of salvation and love
(Don't drop your arms)
Don't drop your arms, I'll guard your heart
With quiet words I'll lead you in

You're so brilliant, don't soon forget
You're so brilliant, grace marked your heart
You're so brilliant, don't soon forget
You're so brilliant, grace marked your heart
You're so brilliant (This is the correlation)
Don't soon forget (Between salvation and love, don't

drop your arms)
You're so brilliant (I'll guard your heart)
Grace marked your heart (With quiet words I'll lead you
in and out of the dark)

La lalalala, la la la, la lala, la
(Don't drop your arms)
La lalalala, la la la, la lala, la

This is the correlation of salvation and love (La lalalala,
la la la, la lala, la)
(Don't drop your arms)
Don't drop your arms, I'll guard your heart (La lalalala,
la la la, la lala, la)
With quiet words I'll lead you in

This is the correlation of salvation and love (La lalalala,
la la la, la lala, la)
(Don't drop your arms)
Don't drop your arms, I'll guard your heart (La lalalala,
la la la, la lala, la)
With quiet words I'll lead you in
