Anybody out there?

Building up the pain, it's ready to go
The rocket has launched, where will it go?
And what will it be, and what will we do
The match has sparked a fire anew
And what will we do

Valkyrie missile, packed and away
Something is coming, but I can't say
She knows I know, and I know it too
Surprise, here it is, we were waiting for you

Take a chance, 'cuz I know you want to
Let me kiss you, and let me save you
Let me end your eternal fear
Let me take you far away from here

Cocked and loaded, ready to go
No one knows what happens when it goes
One by one, the rockets fly
Soaring into the February sky

Take a chance, 'cuz I know you want to
Let me kiss you, and let me save you
Let me end your eternal fear
Let me take you far away from here

Valkyrie missile, packed and away
Something is coming, but I can't say
She knows I know, and I know it too
Surprise, here it is, we were waiting for you

Take a chance, 'cuz I know you want to
Let me kiss you, and let me save you
Let me end your eternal fear
Let me take you far away from here

Take a chance, 'cuz I know you want to
Let me kiss you, and let me save you
Let me end your eternal fear
Let me take you far away from here.
