She hates the man and he hates the man
Because something strong inside
Has been denied them
But not him, oh, not him

He hates the girl and she hates the girl
Because something weak implied
They fought to push aside them
But not her, oh, not her

The girl isn't alive but the man is dead
Because it's all been said before
The girl isn't alive but the man is dead
Because you only have your mentor to draw your whore

Dead lumps of meat melt in this heat
Dead lumps of meat melt in this heat

She hates the man and he hates the man
Because something strong inside
Has been denied them
But not him, oh, not him

He hates the girl and she hates the girl
Because something weak implied
They fought to push inside them
But not her, oh, not her

This girl isn't alive but the man is dead
Because it's all been said before
The girl isn't alive but the man is dead
Because you only have your mentor to draw from

Dead lumps of meat melt in this heat
Dead lumps of meat melt in this heat but not them

Oh, but not them, oh, but not them
But not them, but not them
Oh, but not them, oh, but not them
But not them, but not them
