You're loving me back like I've always wanted to be  
loved  
Do good for me baby, baby

Mama told me that,  
The more you're good to others  
(The more you'll get it back)  
I took the best advice  
I believe that mama was so right  
(You know she told you right)  
Boy since I met you I realized  
What it means to really compromise

You're loving me back like I've always wanted to be  
loved  
Do good for me baby, baby  
You're loving me back like I've always wanted to be  
loved  
Do good for me baby, baby

The way you make me feel  
Seems like I could never repay you  
(For a love so real)  
But I'll do anything  
Each day I live I'm gonna live for you  
We go together like hand and glove  
Boy you really know how to return your love

We go together like hand and glove  
Boy you really know how to return your love  
You're loving me back like I've always wanted to be  
loved  
Do good for me baby, baby  
You're loving me back like I've always wanted to be  
loved  
Do good for me baby, baby  
You're loving me back like I've always wanted to be  
loved  
Do good for me baby, baby
