(Julius Johnson/Karen Elliot)

do do do do do do do do
do do do do do do do ooh
do do do do do do do do
do do do do do do do

there's a place in this world
we're gonna find it
where there's peace and understanding
we're gonna spread it all around the world
there's a place in this world
we're gonna find it, oh yes, we will
(oh yes, we will)
where there's peace and understanding
we're going to spread it all around the world

why do I have this feeling
about the hatred in the air
some of us don't think it's fair
I say you
look inside yourself
check it out, do you care?

we are on this earth together
fighting friends don't ever win
some of us don't want to bend
I say you
come and take my hand

there's a place in this world
we're gonna find it
where there's peace and understanding
we're gonna spread it all around the world
we're going to spread it all around the world
hoo, oohh

where there's no more hate, no more pain
there's places in the heart
that's where it starts
no need to be ashamed

stand up
stand up
stand up
stand up

there's a place in this world
we're gonna find it
where there's peace and understanding
we're gonna spread it all around the world
there's a place in this world
we're gonna find it, oh yes, we will
(oh yes, we will)
where there's peace and understanding
we're going to spread it all around the world

it don't hurt nobody
(it don't hurt nobody)
to talk about some peace of mind
it don't hurt nobody
(it don't hurt nobody)
to talk about some peace of mind
