I just want to see you again  
Your presence always is so calming  
I only hope that you can understand  
The thoughts I want to tell you

I see, I fall, I follow you  
I see, I fall, I follow you

Is it a prayer to ask for happiness  
When I make my life the way it is?  
I see in your eyes the things that you've wanted  
Not far from mine

There is so little I need from this earth  
So I wish and I wish for it always  
I don't need any reactionary toys  
Just tell me how you feel

I see, I fall, I follow you  
I see, I fall, I follow you
