"What Do You Want"

I turned myself out for you I compromised everything
that I knew
Felt to unworthy and all for what, fo what, for what
All of the nights that I couldn't sleep tried to be all that
you want me to be
Just when I think that I'm close you put me down it goes
on and on and...
With no end in sight keep on tryin? keep on tryin' never
seem to get it right

[Chorus:]

Can't you see I can't breath let it go you're suffocating
me
I can't breath anymore I'm sick of yo tryin'to change me
I can't breath let it go I want you to leave me alone
What do you want... what do you want... what do you
want from me

I?m done tryin' to gain your acceptance loosing myself
and I just can't pretend
That your words are not really hurting me when they
are... and it goes on and on and...
With no end in sight keep on tryin? keep on tryin' never
seem to get it right

[Chorus]

I won't live my life, live my life this way your words are
poison
And they drive me insane I?m letting go
I'm walking away I won?t change...

[Chorus]
