Get a little loaded on a Saturday night
Everybody's rolling and they're feeling just right
Don't take long just to get this thing a started, yeah
All the young girls say they like it on top
Try to take it easy but the action don't stop
Can't slow down when you've already hit the ground
running

And everyone knows that anything goes
As long as you can stay all night, yeah

She says I can't live without her now
I can't go on without a doubt
There must be something wrong with me
I'm starting to believe everything she tells me
She says I can't live without her now
I can't go on without a doubt
There must be something wrong with me
I'm starting to believe that she's a control freak, Control
Freak, Yeah

Crazy little lady got a hold on me
Girls they keep it coming, make it so easy
Party don't start until every bottle's empty, no
She's over in the corner and she's staring me down
I'm loving the attention that I'm getting right now
She'll cry all night but I'm not gonna settle down, no

Wherever I go I'm never alone
She's always got her eyes on me, yeah

She says I can't live without her now
I can't go on without a doubt
There must be something wrong with me
I'm starting to believe everything she tells me
She says I can't live without her now
I can't go on without a doubt
There must be something wrong with me
I'm starting to believe that she's a control freak

She says I can't live without her now

I can't go on without a doubt
There must be something wrong with me
I'm starting to believe everything she tells me
She says I can't live without her now
I can't go on without a doubt
There must be something wrong with me
I'm starting to believe that she's a control freak

(Lyrics behind last chorus)
So controlling, I can't change her
Looks like I'll be on my own
