Chorus: Dear honey you've got me round your finger
with x's and o's. You said

you loved me do I believe you with x's and o's.

I suspect a crush on another girl do you respect me
with all those x's and

o's. Or just to butter up the buttercups. Sometimes I
think you use me so that

your other girls gets joulous with x's and o's. Dear
Honey you've got me round

your finger with x's and o's. You said you love me, do I
believe you with x's

and o's? If you love me, bring me flowers, with x's and
o's. And if I love you,

will you respect me! I'm going crazy with all these x's
and o's. What kind of

fool do ya think I am? With all these x's and o's. Your
buttering up a

buttercup! Dear honey, you've got me round your
finger, with x's and o's. You

said you loved me, do I believe you with x's and o's. Oh
honey, you gave me all

the love I asked for, with x's and o's. And ohhhh. Honey
