Find me. Come on over here. You know you wanna get
a monster's
heartache. Blind me. You can stay a while and paint a
pretty smile
upon your favourite child.

You love the way he shook you for a while. You know
you really
got it going on now.

The girl's on fire, you will never learn. The girl's on fire,
you will crash and burn.

Alright, take it to the limit. You know he's gonna give
his
all or nothing. Tonight you'll have it your own way and
you
will get to stay. It's all you want this time.

You love the way he shook you for a while. You know
you really
got it going on now.

The girl's on fire, you will never learn. The girl's on fire,
you will crash and burn.

The girl's on fire, you will never learn. The girl's on fire,
you will crash and burn.

You love the way he shook you for a while. You know
you really
got it going on now.

The girl's on fire, you will never learn. The girl's on fire,
you will crash and burn.

The girl's on fire, you will never learn. The girl's on fire,
you will crash and burn.
