"Daylights"

Don't look around for me
Don't tell me what you wanna be
Don't say it's not the same
Don't walk ahead and then lose your way

You scare the daylights out of me
You scare the daylights out of me

Don't stand outside my door
Don't tell me what you're living for
Don't tell me you don't care
I never told you life was fair

You scare the daylights out of me
You scare the daylights out of me

I don't think you understand
Back to back and hand to hand

Don't tell me you don't see
What went wrong and what you mean to me

You scare the daylights out of me
You scare the daylights out of me
I don't think you understand
Back to back and hand to hand

You scare the daylights out of me
You scare the daylights out of me
