"Help Me Out"

Visit "[Help Me Out](#)" on MotoLyrics.com

You always told me that you'd
Understand if I ever found something else
That I wanted to do
You always showed me right from wrong
You always let me sing my song
That's what I wanted to do

Help me out
I'm just a little down and out
Help me out
You gotta let me scream and shout
Help me out
C'mon help me out

When I find myself alone
Living life without a home
That's where I wanted to be
If I need you in the end
Will you always be my friend
That's what I need you to be

Help me out
I'm just a little down and out
Help me out
You gotta let me scream and shout
Help me out
C'mon help me out

Help me out
I'm just a little down and out
Help me out
You gotta let me scream and shout
Help me out
C'mon help me out
C'mon help me out

Solo

Help me out
I'm just a little down and out
Help me out

You gotta let me scream and shout
Help me out
C'mon help me out

Help me out
I'm just a little down and out
Help me out
You gotta let me scream and shout
Help me out
C'mon help me out

Help me out
I'm just a little down and out
Help me out
You gotta let me scream and shout
Help me out
Hey, c'mon help me out
