"If I Fall Through"

Visit "[If I Fall Through](#)" on MotoLyrics.com

If i stop and say that's it what would you do
If i lie down and quit and put an end to you
If i fall through that hole would you pick me up
If i lose my control and break your loving cup

If i fall through
If i fall through

If i love you too hard would you slow me down
If i crawl through your yard my face on the ground
If i fall through that hole mighty river below
If i lose my control would you not let go

If i fall through
If i fall through

[solo]

If i fall through
If i fall through
If i fall through
If i fall through
