Thats what I'm talking about
Now guitar

Im gonna quit
Cause it's getting old
And it'll save my life
Or so I been told
Ya see I got this thing that I like to do
But it seems to get
Between me and you
You wont understnad
If you gotta ask why
If its what you want I guess i'll try

[Chorus]
We're breakin up your movin out on saturday
I'm losin friends I'm losin face I'm losin weight
So get your things out of my place on saturday
On saturday
On saturday
On saturday

I cant find my key
I know where it went
Straight out the door
With half the rent
But I got this song
That I like to sing
And you can keep the key
I'll keep thie ring

[Chorus]
We're breakin up your movin out on saturday
I'm losin friends I'm losin face I'm losin weight
So get your things out of my place on saturday
On saturday

On saturday
On saturday

And she said "It's not you i just need my space"

On saturday (3x)

And I said, "It is me just say it to my face"

On saturday (3x)

(break it down)

All in time it will be fine just me myself and I sublime
All in time it will be fine just me myself and I sublime

[Chorus]

We're breakin up your movin out on saturday
I'm losin friends I'm losin face I'm losin weight
So get your things out of my place on saturday
On saturday
On saturday
On saturday

And she said, "It was you I found somebody new"

On saturday (3x)

She said, "Thats not the color I wanted I said blue"

On saturday (21x)
