I stand on a bridge on the west side of town  
I watch them put up and I watch them knock down  
The river below is frozen in time  
Nothing left of the five and the dime  
I couldn't see it I was in the sunshine

Sit in a bar north end of the street  
I get around on my bike and my feet  
Grey sky above is frozen in time  
Nothing left of the reason or rhyme  
I couldn't see it I was in the sunshine

I'm carrying time right out the door  
Walked out on love gave up on the store  
Guess I had a good life wish I'd known at the time  
I couldn't see it I was in the sunshine

I wake up alone I wake up the same  
A little regret and some debt in my name  
Pictures of you frozen in time  
Nothing left of the love that was mine  
I couldn't see it I was in the sunshine

I'm carrying time right out the door  
Walked out on love gave up on the store  
Guess I had a good life wish I'd known at the time  
I couldn't see it I was in the sunshine
