### "I Wanna"

I wanna make a scene like I'm in the middle of a crowd  
Your my girl and I'm your boy  
There's the live band and I'm the vocalist  
I don't care what the people will say  
Infront of u and the crowd  
I'm gonna say what's inside me  
And I will be singing

Just like the moon captures the night sky  
My love for you wont die  
I wanna be with you  
I'm hoping it's me and you

Pls let me take this moment  
Don't think, this thing is not fluent  
My heart is pounding...  
I'm hoping it's me and you

I wish I was him, I let those years passed by  
My mind is creeping...  
Remembering that pendant butterfly  
She ask for that thing, answered it's missing...

I don't care what the people will say  
Infront of u and the crowd  
I'm gonna say what I feel  
And I will be singing...

Repeat chor...  
Oh oho wooahh hooo
