If only I could turn back time

[Chorus: repeat]

I'll take away the pain that I cause when I speak it in  
rhyme

if only I could turn back time

If I could I'll dry your teary eyes with a push of rewind

If only I could turn back time

I'd have took my ass to school instead of doing drugs  
and crime

if only

[1st Verse]

Never meant to render hurt to who I love

all I ever wanted was a blessing from the Man above

Lost in ignorance how can I panic

misusin those I love actually I don't understand it

wish I could recapture the past if the chance was

granted

like the butterfly effect I'd repair all damage

and make it where you never did suffer

give you the peace you only dreamt of having with your  
mother

til then I'm in the gutter

niggas think I live my life to cast pain

to an innocent being who I can only give my last name

shit I'd be different if the cash came

but in the eyes of the system I'm just a victim with a  
bad name

homeless if another seed is my destiny

and I ain't got a thing what will I leave as a legacy

I'm prayin desperately

all the good that I rendered manifested into trouble

we'd probably be better separately so baby I apologize

you sacrificed paradise for a life of parasites

and hell modified the serpent rendered us a lot of lies

drinking the cup of suffering cause we have-nots

who outta rise infatuated with the dollar sign

I didn't know the half of your struggle feelin

you was outta line thought I could save her

like the Lion of Judah she was a rose being smothered

cause I planted manure if only

[2nd Verse]

Dear Cinderella I'm sorry I was blinded by cheddar  
living life as a man with no money I could never  
measure  
I dreamt of buying you a mansion of bricks  
but I was barely recouping and CEO's were rich  
you bared with me in hopes that your baby would rise  
and when the bills were behind shit it ate me alive  
I started peddlin yay sellin hay to see a better day  
dirty money and you said the Lord told you never take  
it  
and with a new breed in the game lurking  
the game is strenuous on me so I continue working  
my only way for me to feed my baby  
was hit the trap with 380  
and serve the fiends who shady  
my fantasy is riding in Mercedes  
but I got 9 albums out  
and ain't a DJ in the South trying to even play me  
wish I could rewind the hands of time  
get a career and never have to put a hand in crime if  
only

[3rd Verse]

Dear child I aborted  
I'm writing a letter to you in Heaven in my mind it was  
pre-recorded  
me I'm still getting shorted  
the fires of having nothing have got me feelin suicidal  
bout to forfeit  
pray for your daddy he's a madman  
ain't a thing going his was looking for treasure in a  
trash can  
see you was precious before I met you  
let it be told I never wanted you to feel the pain and be  
exposed  
and Lord knows I'll probably be punished but I deserve  
it  
so I'm nervous but I'm always honest  
but if I didn't rap and had a 9 to 5 in college  
from hella degrees in college it'll probably be logic  
my life is deadly as a kitchen razor  
I felt a life in Heaven was the only way to raise ya  
so if I'm wrong pray for me directly to the Savior  
I need his mercy now or later Alpha and Omega hell is  
major
