(The Clash)

So you're on the floor, at 54
Think you can last - at the Palace
Does your body go to the to and fro?
But tonight's the night - or didn't you know
That Ivan meets G.I. Joe

He tried his tricks- that Ruskie bear
The United Nations said it's all fair
He did the radiation - the chemical plague
But he could not win - with a cossack spin

The Vostok Bomb - the Stalin strike
He tried every move - he tried to hitch hike
He drilled a hole - like a Russian star
He made every move in his repertoire

When Ivan meet G.I. Joe

Now it was G.I. Joe's turn to blow
He turned it on - cool and slow
He tried a payphone call to the Pentagon
A radar scan - a leviathan

He wiped the Earth - clean as a plate
What does it take to make a Ruskie break?
But the crowd are bored and off they go
Over the road to watch China blow!

When Ivan meets G.I. Joe
