All of my life, I have been waiting
Wondering what I will do
All I can feel is my heart beating
Time and time again, for you

And I'm weightless, falling in love
I am weightless
And I don't know why
But I know it's all right

All I can hear is my own breathing
Echoin' my loneliness
If I could sleep, I would be dreaming
Of the sweetness of your kiss

And I'm weightless, falling in love
I am weightless
And I don't know why
But I know it's all right

And I'm weightless, falling in love
I am weightless
And I'm so high
I'm with my angel tonight

And I'm weightless, falling in love
I am weightless
And I don't know why
But I know it's so right

And I'm weightless, falling in love
I am weightless
And I'm so high
I'm with my angel tonight
