Leave and let me go  
You're not meant for me, I know  
Carry on, carry on, and I'll stay strong

Leave and let me go  
I will think of you, I know  
But carry on, carry on, and I'll stay strong  
Someone else will keep you warm, from now on  
Someone else will keep you safe from the storm  
But I'll be with you wherever you go  
So you will never be alone  
I'm going where the wind blows  
Going where the lost ones go  
I will be with you  
I'm losing the love I found  
Crying without a sound  
Where have you gone?  
I will be with you  
You were my fool for love  
Sent me from high above  
You were the one  
I will be with you  
I'm going where the wind blows  
Going where the lost ones go  
Leave and let me go  
Don't look back just let me know  
You'll carry on, carry on, you must stay strong  
Nothing ever looks the same in the light  
Nothing ever seems to quite turn out right  
But when you realize that you have been loved  
You will never be alone  
I'm going where the wind blows  
Going where the lost ones go  
I will be with you  
I'm losing the love I found  
Crying without a sound  
Where have you gone?  
I will be with you  
You were my fool for love  
Sent me from high above  
You were the one  
I will be with you

I'm going where the wind blows  
Going where the lost ones go  
Leave and let me go  
Baby I can't come along  
So carry on, carry on, you must stay strong
