"Dancing Upon The Moon"

I had have never thought that breaking from escaping
Would ever make me feel that free
And above all without faking the engraving
Chiseled in the stones that we carry

We won't stop dancing upon the moon
We won't stop dancing upon the moon

Dead is what I felt before we restored
The rhythm of our heartbeat
Then I found out the more we explore
The more we move away from foreign greed

We won't stop dancing upon the moon
We won't stop dancing upon the moon
And our hearts swing until the erasure
Of all qualms about where we might end up

We won't stop dancing upon the moon
