Come on to the dancefloor, get up from your seats
If the hall doesn't hold us, we'll dance in the streets,
Move your arms and your legs, tune your ears to the
sound,
And nothing will stop us - the Black Cat's around
Come on, don't be lazy, we've got a new song,
We'll teach you the words and then you'll sing along
When the neighbours scream murder, we'll just shout
them down,
And nothing will stop us - the Black Cat's around
Come on, join the fun and bring all our friends too,
On a day like today, say, what else would you do?
Move your arms and your legs, tune your ears to the
sound,
And nothing will stop us - the Black Cat's around
