"Flesh & Bones"

Visit "[Flesh & Bones](#)" on MotoLyrics.com

What's within us
Is all around us
Not a boundary
These flesh and bones
Something might
Something startling
Realizing what we are when we're alone

Hold me in I'll come undone
Hold me in I'm sinking, sinking for these
Flesh and bones I'm inside these eyes
Sometimes I can't sleep at night
For these flesh and bones make so much of me
You're still in me and on my mind
These flesh and bones, bones, bones

Up the ladder
Genetic make-up
Spells the code for you and me
Animal instinct
Chemical magnet
You came my way could you be done with me

Hold me in I'll come undone
Hold me in I'm sinking, sinking for these
Flesh and bones I'm inside these eyes
Sometimes I can't sleep at night
For these flesh and bones make so much of me
You're still in me and on my mind
These flesh and bones, bones, bones

What's within us is all around us
Not a boundary these flesh and bones
