Floating on this water  
Couldn't be any better  
'Less I sank to the floor  
And could breathe

Clouds roll by in shapes of butterflies  
And there's no time  
To miss you any more  
Now I can breathe

Funny when nobody's listening  
The truth catches easy  
There's no more fishin'

I'm up and away  
Without you here  
I'm captive  
Polishing the looking glass

There's no one to be  
Without you here  
Everything's fine, I'm starting over  
Polishing the looking glass

Fairy tales and fables  
Many lies are on the table  
In this crazy world

Sodom and Gomorrah  
Not the storyville of horror  
That we have today  
What's been happening?

You said that you'd go away  
If I had given in to tell you lies  
And play you for a fool

I'm up and away  
Without you here  
I'm captive  
Polishing the looking glass

There's no one to be  
Without you here  
And that's for which I'm, I'm starting over  
Polishing the looking glass

I'm coming off like a roller coaster  
The silly games and mistakes  
I want you to know  
I want you to know

Funny when nobody's listening  
The truth catches easy  
There's no more fishin'  
You see, there's no more fishin'

I'm up and away  
Without you here  
I'm captive  
Polishing the looking glass

There's no one to be  
Without you here  
Everything's fine, I'm starting over  
Polishing the looking glass

This is isn't over  
Polishing the looking glass  
I'm starting over  
Polishing the looking glass

Fairy tales and fables  
In this crazy world
