I'm begging for anyone in sight
I'll lie awake, and you just sleep tonight
It's dangerous to make a commitment to myself, or
anyone

Elsewhere is all she talks about,
But there's not enough ways to get her out of this
country or at least my life
I tried to cut her out, but dropped the knife

She makes scenes like Hollywood
She drags them out, she drags them out
She makes scenes like Hollywood,
She makes them count, makes them count

And it just takes time to heal,
And all she said is "I'm afraid to feel anything more
than this, and I'm sorry"
I never believed her. It's all just fucking lies
It's all just fucking lies

I'm begging for anyone in sight,
But I guess I'll just settle for you tonight.

She makes scenes like Hollywood
She drags them out, she drags them out
She makes scenes like Hollywood
She makes them count, makes them count
