These fucking kids are driving me insane  
They're taking credit like they own the place  
I've got a secret that I'll tell you right now  
If you can't hear me, then I'll sing it out loud

Now everybody just gets to me  
It's like a loudmouth, back row yelling at the movies

And if reality gets hard to bear,  
You need to find someone who fucking cares  
When reputation's all you have in this town, will it pick  
you up, or will it take you  
Downtown ready to go, it's not a show  
It's not a front, it's all we know  
Who's taking the stand? Who's taking the fall?  
Who's taking the stand?

And I just can't seem to make it through to any single  
one of you  
We demand to make a change in a world that's all the  
same  
Everybody just gets to me  
It's like a white trash clubrat claiming she's not easy  
What I want is just a little bit (maybe some more)  
What I want is what I'll never get

I know you think that you have found your place,  
But just ask anyone, that's not the case  
I've got a secret that I'll tell you right now  
If you can't hear me then, if you can't hear me then I  
guess I'll sing it out loud

Everybody just gets to me  
It's like you're bringing up history, thinking I'll feel  
guilty  
What I want is just a little bit (maybe some more)  
But what I want is what I'll never get (give me some  
more)  
What I want is just a little bit (maybe some more)  
What I want, well I want is

All of this shit to end with you and all your stupid  
friends  
It gets me tired, it just breaks me down  
But oh, whatever gets you by, whatever gets you where  
you need on time  
I'm not here to judge you, I just speak my mind, and  
the truth is

Everybody just gets to me  
Except the front row right here, picking up the melody.  
What I want is just a little bit (maybe some more)  
What I want is what I'll never get  
Everybody just gets to me.
