LIGHT

words and music by andrew eldritch

The lights shine clear through the sodium haze

The night draws near and daylight fades

Ignore the voices discard the day

For the brand new darkness for the bright new way

Hit

Well there have been better plans

But none that I could ever understand

Emerald signal the green on black

The lights say move say never look back

And so I find a place where I've never been seen

Find another place where the red turns green

Where the emerald glistens through the darkness  
again

Where the emerald glistens through the rain

The lights shine clear through the sodium haze

The night draws near and the daylight fades

But there's a voice in the distance quiet and clear

Saying something that I never ever wanted to hear

Wellt there have been better plans

But none that I could ever understand  
I see the emerald signal see the green on black  
I see the light say move say never look back  
And so I find another place where I'll never been seen  
Find another place where the red turns green  
Where the emerald glistens through the darkness  
again  
Where the emerald glistens through the rain rain rain  
And I'm happy here  
In the rain  
In the rain  
In the rain rain rain I'm happy here  
In the rain  
Where the emerald  
Glistens  
Through the rain
