I was found on the ground by the fountain
At Valder Fields and was almost dry
Lying in the sun after I had tried
Lying in the sun by the side

We had agreed that the council would end
At three hours over time
Shoelaces were tied at the traffic lights
I was running late I could apply

For another one I guess
If department stores are best
They said there would be delays
And only temporary pay

For another one I guess
If department stores are best
They said there would be delays
And only temporary pay

She was found on the ground in a gown
Made at Valder Fields and was sound asleep
On the stairs outside the door
To the man who cried
When he said that he loved his life

We had agreed that the council should
Take his keys to the bedroom door
Incase she stepped outside and was found in two
Days in Valder Fields with a mountain view
