The Clay People - Awake

Can't breathe
Hyperventilating
Look out
Fall and hit the ground
Pain leading
Will someone get me out?
Can't breathe
Hyperventilating

Wake up
Wake up

Feeling down
Head blown out and no more sound
Lights go out
Feeling down, your eyes blown out
Feeling down
Head blown out and no more sound
Lights go out
Feeling down, your eyes blown out

Wake up
Time to die
Wake up
Time to die
Wake up
Time to die
Wake up
Time to die

Manipulation and it's killing me
Communication and it's killing me
Reproducing and it's killing me
Clones for its misusing and it's killing me

Wake up
Time to die
Wake up
Time to die

Wake up
Time to die
Wake up
Time to die

We all have lost control
Lost control
Lost control
We all have lost control
Lost control
Lost control
We all have lost control
Lost control
Lost control
We all have lost control
Lost control

Wake up
Wake up
Wake up
Wake up

Wake up (No control... reckoning)
Wake up (So depressed... emptiness)
Wake up (No control... reckoning)
Wake up (So depressed... emptiness)
